

## MC Industries Drywall Track

*Our machines produce cut to length, non-structural track profiles out of light gauge steel for non-load-bearing applications. These profiles are typically used for top and bottom plates and are made to have drywall studs fit inside. Legs can be knurled for easier screw installation. Legs can be adjusted to have slight "toe-in" which allows studs to be captured tightly for easier assembly. These studs conform to ASTM CG45-04.*

MC Industries Product Name	SSMA reference	Thickness: Gauge, (mils),	Yield / Tensile	Depth		Leg	
				Inches	(mm)	Inches	(mm)
1-5/8" Drywall Track	162S100-x	20 (33) (.0346), 22 (27) (.0283), 25 (18) (.0188)	33/45 ksi	1-5/8	41.3	1	25.4
2-1/2" Drywall Track	250S100-x			2-1/2	63.5	1	25.4
3-5/8" Drywall Track	362S100-x			3-5/8	92.1	1	25.4
4" Drywall Track	400S100-x			4	101.6	1	25.4
6" Drywall Track	600S100-x			6	152.4	1	25.4
1-5/8" Drywall Track	162S125-x	20 (33) (.0346), 22 (27) (.0283), 25 (18) (.0188)	33/45 ksi	1-5/8	41.3	1-1/4	31.8
2-1/2" Drywall Track	250S125-x			2-1/2	63.5	1-1/4	31.8
3-5/8" Drywall Track	362S125-x			3-5/8	92.1	1-1/4	31.8
4" Drywall Track	400S125-x			4	101.6	1-1/4	31.8
6" Drywall Track	600S125-x			6	152.4	1-1/4	31.8
